

Avignon

PD-11400~PD-11421

Our Avignon fixtures are stately on the outside; but they are fun on the inside. We follow the original antique construction techniques that were used to put these fixtures together 100 years ago. Diffuser panels drop down through individual slots and rest on the solid ring at bottom. No threaded fasteners. No soldered clips. Very early 20th century Art Deco! Rising wheat symbols adorn the outside and mis-matched metals make up the bottom layers. We have upgraded the lamping just a bit. Try our 50,000 hour modular LED clusters for the ultimate blend of old and new.
