Dublin

SC-11800~SC-11811

Our Dublin fixtures are kind of a light gothic/contemporary blend of form and functionality. They feature modified two step arches and straight wall cap top covers. Dublin series fixtures tend to be significantly longer than their width, giving them a very trim, almost modernistic appeal. They look right in a variety of architectural settings actually providing some lightness to traditional buildings and maybe just a little melancholy to more contemporary venues. Overall, these lights are genuinely stately with futuristic leanings. They are available is a wide variety of finishes and diffuser types.
