McCayla

PD-12000~PD-12021

Our McCayla fixtures are multi-layered fabric drum designs. We build them from laminated lamp shade materials sturdy enough for commercial applications with sheets of clear polystyrene molded to both sides. Long lived and easy to clean as needed. There are intentional light leaks built into every fixture. The fabric overlaps are not sealed at all. The overall effect is linear peeps of brightness in an otherwise somber exterior. We offer McCayla fixtures is a variety of fabrics and metal finishes. Cables are thumb adjustable for easy mounting. LEDs are bright and long lasting.

~McCayla Series~
