

Valensia

PD-12000~PD-12021

Our Valensia fixtures are just attractive, conversational lights. The pendants feature an inverted bowl that is capable of throwing unique patterns onto nearby surfaces when used in conjunction with our "Rain" series acrylics. Valensia bowls mount to heavy, fluted top fitters. The extra weight at top tends to stabilize and define the otherwise lightweight bowl and also adds to the rugged good looks of the fixtures as a whole. Cable suspension is height adjustable with only thumb pressure on the collet. Lamping options and material finishes are very extremely variable.
