

Vigo

CL-12400~CL-12408

Our Vigo fixtures are modern drum types that look good in just about every location. They look just as right in a contemporary office space as they would in an adaptive reuse warehouse...or maybe a castle. These lights are blends of surrounding rolled metal rings and extra large central spinnings. Pendants feature a bottom spread lens and a nice cable/stem suspension system. The effect of Vigo fixtures is a smooth ambience in the places they inhabit. Nice over dining tables. Nice over library tables. Not quite bright enough for operating tables. But you get the point. Nice lights.
