

Venice

SC-12600~SC-12611

Our Venice fixtures are for grand entrances and grander hallways. They are gorgeous lights, very good at making a building look better than imagined. We build Venice from non-ferrous metals, brass and aluminum. And we finish them in a variety of powder coats and polishes. The linear nature of these sconces and pendants makes them just right for tall atriums and colonnaded entrances. They throw footcandles in 45° angles onto stair steps and doorways. Great help for those in need of better task lighting as well as for owners who just like the deco good looks. Fine lights for fine places.
