

Seville

PD-13000~PD-13021

Our Seville fixtures are lean and thin and powerful. They are the cutting edge of contemporary design for today's commercial buildings. Straight lines and 90° angles fit well into a wide variety of spaces. And the simplicity of these lights help them maintain that universal effect. There are no ornaments on Seville, nothing that would separate the room from the amount of light they will produce. We offer them in a number of lengths, but only one diameter. The common denominator with these lights is their 8" square top and bottom frame. Different body heights look really attractive in a central room cluster arrangement.
