## SC-14400~SC-14411

Our Bristol fixtures are strong linear pendants and sconces featuring dramatic laser cutouts that define the circular/straight nature of the fixture. A thick non-ferrous metal framework is laser cut for an attractive and bright light source. The smooth side edges of the pattern cuts will tend to project a rounded edge beam onto surrounding surfaces. Curving light lines enhance the classic beauty of these lights. Bristol fixtures can be the jewelry of the room while providing needed ambient light. We offer Bristol in a wide variety of finishes and diffuser panels. Our modular LED is just right!
