

Messina

PD-2003~PD-2031

Our Messina fixtures are longer than average cylindrical lights. Their extra length creates linear dimensions that blend well with taller ceilings in multi-story atriums and stairways. Lamping options are paired to similar long bulb types, fluorescent T-5's, and LED strips. We do not offer an incandescent version of Messina due to the difficulty in relamping with screw-in A-lamps. You will find these fixtures do more than just emit side light. The ring at bottom allows us to mount extremely powerful LED downlights that will create startling effects on the floor below.
