

**Laramie**

**PD-2403~PD-2431**

Our Laramie fixtures are longer than average cylindrical lights. Their extra length creates linear dimensions that blend well with taller ceilings in multi-story atriums and stairways. Lamping options are paired to similar long bulb types, fluorescent T-5's, and LED strips. We do not offer an incandescent version of Laramie due to the difficulty in relamping with screw-in A-lamps. You will find these fixtures do more than just emit side light. We typically can mount extremely powerful LED downlights that will create startling effects on the floor below.
