Julesta

CH-2800~CH-2814

Our Julesta fixtures are clean edged pendants, chandeliers, and sconces. The chandelier version may be suspended by chains, rods, or aircraft cables. Chain suspension systems give Julesta a medieval feel. Straight rod suspensions give Julesta a very contemporary appeal. We show straight etched white glass lenses, but swap them out for some of the many versions of alabaster and green-edged acrylics and the feel of the fixture totally changes. Notice that we offer the fixture in incandescent, fluorescent, and LED configurations. Larger size chandeliers available in two massive tiers.
