

Strawbridge

PD-3300~PD-3331

Our Strawbridge fixtures are very classic designs with thick custom cut filigree at top surrounding the canopy, and a heavy ornamental fitter over top of the glass globe. Their striking good looks overshadow the fact that they do actually provide an enormous amount of light to the room below. While we show a plain opal ball shade (OBS) in photos, there are many glass options available for these lights. Finishes range from real antique brass to hammered stainless steel. And lamping options will let you choose from less costly incandescent sources all the way to modular LED.
