

Rimmington

SC-3700~SC-3711

Our Rimmington fixtures are brawny, art deco-inspired light fixtures. They feature rugged bar supports joining super-thick rings and pans into a unified whole. Optional acrylics and metals can completely change the tenor of these fixtures. Dark bronzes, even blacks, go very well with green edged diffusers. Satin golds and nickels look great with white. And optional lampings can greatly affect the maintenance and longevity. But the Rimmington style itself is not to be taken lightly. These lights project solid, timeless principals of materials and structure. Just forever beautiful we think.
