McKenney

CH-4000

Our McKenney fixtures are just amazing. They are painstaking recreations of stately gasolier fixtures made in the late 1880's by Charles McKenney Company of Boston. Working from old... very old...photographs, we were able to duplicate these fine lights to a level of precision that would have pleased Charles. They are made completely from solid yellow brass and polished to a butler finish...just like they would have been a hundred years ago. The gas valves are strictly decorative with large holes in them for wires instead of gas. Other than that, we strayed very little from the original intent.

~McKenney Series~

Chandelier: CH-4000

Wall Mount: SC-4000

Mounting: Lightsmith fixtures mount to standard 4" octagon electrical boxes unless otherwise specified. All hardware and canopies supplied.

Listing and Warranty: Lightsmith fixtures are Underwriters Laboratories listed and carry a standard three year warranty against defects in materials and labor beginning at date of shipment.
