

**Isador**

**PD-4200~PD-4231**

Our Isador fixtures are basically large diameter acrylic flowers that we make in a variety of sizes and colors...just like flowers should be made. We wish that we could power them just with sunlight, but we haven't quite figured that one out yet. So, till we do, there's always electricity. Maybe you could do solar power and complete the cycle we have been unable to do. In the meantime, we are glad to make them for those deserving few souls that appreciate the radiance and spirit that deep colors can bring to a room. And our lamping options are just as bright as our colors...look! →
