

Rellekka

PD-5800~PD-5814

Our Rellekka fixtures are extreme Art Deco designs. They represent what was best in that period of time...layers and layers of interlocking metal and glass panels that build to a crescendo of elegance. We build them to be as sturdy and enduring as any lights from the 1920's, but with lamping and material options that would have been unheard of in that point of time. We offer Rellekka in very large sizes and in square as well as rectangular configurations. If you need to save on weight, order the acrylic options, but for a strictly deco historic look, there's nothing quite like sandblasted glass!
