

Greenville

SC-6500~SC-6511

Our Greenville fixtures are sturdy sconces, pendants, and chandeliers. Their structural integrity comes from solid aluminum and brass bar stock straight staves that are connected to arched solid bar stock framing. We actually tap deep into the staves with heavy stainless screws for a terrific bond. These are fixtures that will last for years without frame issues of any kind. And many are available in wet location mounting configuration. We offer integral emergency ballasts in all sizes, and our color combinations are hard to beat. Try mixing satin aluminum with polished brass reveals!
