

# Rodney Bay

## SC-7000~SC-7011

Our Rodney Bay fixtures are a blend of elliptical acrylics and metals. We custom form the acrylic panels while they are completely hot and supple. The effect is a dramatic straight edge acrylic lens resting inside a matching metal holder. Rodney is a very efficient, bright fixture. The mass of the acrylic body lends itself to spacious light delivery within a given area. And the minimalist metal frame fitter joins the design with thin edges and complete bottom support. We offer Rodney Bay with Lumicore™ lenses for those interested in LEED credits. Try our LED and CFL lamping options.
