

Luxor

SC-7300~SC-7311

Our Luxor fixtures are unique combinations of curving metal front sections and straight sides with sectional cutouts. Various colored acrylic lenses push light through the side panels, and the front metal cover may be laser-cut to a multitude of designs. Our "SSP" option is a good starting point. With permission of the school or business, we can reproduce their logo as a lighted engraving. It can even have school colors mounted behind the image as in the sconce photo. Geometric shapes, squares, rounds, etc. are available as well. Wet location mounting, too.
