Marseille

SC-7500~SC-7511

Our Marseille fixtures are sharp pointed metal frames grouped in multiple layers. No acrylic diffuser panels at all. The beauty of our Marseille lights does not come from glowing acrylics. Light emanates from spaces between the spear layers. Very dramatic patterns form around the layers, forcing the spear shapes into all directions of the room or even onto an exterior wall. Exciting projections of shaped light create patterns of immense beauty on surrounding spaces. And you will find our finish and lamping options can make Marseille a beautiful friend for many years to come.

~Marseille Series~
