

Ayers

SC-7600~SC-7611

Our Ayers fixtures are smooth blends of classic and modern shapes. The upper crown is a double metal spinning. The body is actually a precision cut laser pattern; and the bottom of these lights is a contoured spinning as well. Ayers fixtures are available in multiple sizes and lamping configurations. The sconces of this style actually offer uplight LED floods for areas that need highlights; and the chandeliers and pendants are just stunning. We offer a wide variety of acrylic and metal options, as well as very energy efficient lampings. Use our LED options for areas that are difficult to access.
