

Abaco

SC-9600~SC-9611

Our Abaco fixtures are simple and attractive bowl designs. They feature a large two-step spun upper trim ring that supports a smooth bowl. We offer stem options with the Abaco pendants that allow four angled supports as well as four straight stems coming down into the trim ring...very nice options for differing geometries of an auditorium. And our finishes are as complete as you could imagine, ranging from solid satin brass to polished aluminum. The acrylics we use are just as nice, and our lamping options give you the opportunity to install trouble free LED lighting.
