

Edge Hill

1101-PC~1117-PC

Our Edge Hill fixtures are solid metal cylinders...no side light. They are available with and without the wood batters we show. The no-wood option is actually our most popular way of building these fixtures. Edge Hill is a great light for getting downlight into a stage area. Most choirs and ministers are used to having flood lighting coming in from an angle to let the audience see them. The Edge Hill series pendants let the choir and minister see to read... most important...without being a glare issue to the congregation. We make them in many sizes and with our LED and CFL options, they are trouble-free.
