

Lemaire

1202-CC~1217-CC

Our Lemaire fixtures are just the thing for churches wanting a splash of color. We hand select each piece of glass in the panels and then embed them in dark epoxy. Light from the cylinder leaks through the glass panels for a glowing, colorful look. The wood battens are individually cut and mitered to fit. They may be made of Oak or Cherry wood. And the spun metal rings are the ribbons that bind this fixture into a seamless, unified presence. You may select from multiple metal finishes and wood stains, as well as acrylic types. Lamping options are just pretty endless. Try our LED's. Nothing better.
