

Rockbridge

1801-PC~1847-PC

Our Rockbridge fixtures feature an acrylic bowl as an interior diffuser with a massive spun trim ring at top and a smaller straight trim ring at bottom. The bottom ring is the housing for the down light that comes as a main feature of these lights in the pendant versions. For places with darker ceilings that cannot rely on the indirect light that a bowl fixture produces, the Rockbridge offers a powerful downlight option to make up the difference. The fixtures come in bold acrylic and metal types. And our new LED options are incredible. Imagine not changing a lamp for 20 years.
