Nash

2001-WC~2013-WC

Our Nash series fixtures are seamless extruded cylinders when ordered in white. They are surrounded on either end by hand spun trim rings. Four aluminum fins join the rings end to end in the pendant version for a very stable and fine-detailed look. These fixtures look just right in contemporary settings, but with the right finish, can blend equally well into classic auditoriums. Because there is very little metal or wood blocking the light output, these are very brilliant fixtures. Just right for places needing lots of light. And our LED lamping options will make them all the brighter and long lasting.
