

Charlotteville

341-CHC~373-CHC

Our Charlotteville fixtures are splendid combinations of metal rings, contemporary bandings, shaped hardwood battens, and radiant acrylic cylinders. The wood staves are stained and then 3-step finished with our water based wood lacquer...very environmentally friendly and super durable. The patterned filigree at bottom is a mildly embossed modern design with double rolled edges. All together the fixture has a little bit of a 60's feel. Wide open sections of acrylic will generate massive amounts of side light. And the bottom downlight can be anything from incandescent, to state of the art LED.
