Madison

501-WC~513-WC

Our Madison fixtures are one of the shop's earliest designs dating all the way back to 1988. They are really an economy of materials for us. Those brass tube swirls at top were actually "leftovers" from our chandelier orders that we didn't want to throw away. After searching for the right way to incorporate them into a pendant fixture, the Madison was born. The staves are a multi-layered solid brass extrusion we used in framing some very upscale architectural metal projects. Together, those two salvaged materials have produced one of our nicest, and most-imitated products.
