

BUJ-L

BUJ-200~BUJ-203L

Our BUJ-L fixtures are bullet style metal spinnings attached to a central round plate. They can rotate a complete 360° when being mounted and then can be individually swiveled about 30° outward to make final adjustment. BUJ-L units are modular LED fixtures with a deeper canopy for the LED driver as well as LED board/heatsink/fan assemblies actually inside the bullet spinning producing amazing lumen packages. The result of all this technology is more light than you can shake a stick at and supreme energy savings to boot. Our BUJ units are medium base screw-ins made for LED par lamps.

~BUJ-L Series~

Mounting: Lightsmith fixtures mount to standard 4" octagon electrical boxes unless otherwise specified. All hardware and canopies supplied.

Listing and Warranty: Lightsmith fixtures are Underwriters Laboratories listed and carry a standard three year warranty against defects in materials and labor beginning at date of shipment.
