

# Confessional

## CFS1

Our CFS1 confessional lights are a two part system composed of a square lighted frame for the exterior of the confessional, and a control switch for the interior. These lights are normally recessed into the woodwork at top or on the side of the booth. The Switching Station is mounted conveniently for the priest to signal waiting parishioners that the booth is available or not. The CFS1 lighting system is modular LED throughout. It features Red diodes top and bottom of the square frame and Green diodes left and right. It is a rugged and long lasting fixture bright enough to be easily seen by all.
