

Gloucester

701-PT~717-PT

Our Gloucester fixtures are just nice. The pendants look equally as good with chain or stem suspensions. And they blend seamlessly into a variety of sanctuaries and auditoriums. A really unusual feature of these lights is their lack of an upper support frame. Without that frame we are free to project light against unshadowed arches, making a beautiful symmetric glowing surface. The fixture actually propels more light upwards because of it as well. With a variety of metal, acrylic and glass types to choose from, you can easily customize to suit your building's interior.
